TABLE E.—Population, Births, Deaths, Infant Mortality, Natural Increase, 1926.—
Counties, County Boroughs, Municipal Boroughs and Urban Districts,
Rural Districts.

Note.—The estimates of population shown in the following table have been based primarily on the 1921 Census returns (See Section "Population" in Text). In the case of districts marked with an *, changes in boundaries have occurred during the year, and the populations have been adjusted in order to make them comparable with the records of births and deaths. Particulars of the changes of boundary will be found in Table AA, Part II. The births and deaths exclude stillbirths. Deaths are transferred to the area of residence of the deceased person; births occurring away from home have been transferred to the area of residence of the parents. Deaths of non-civilians have been excluded throughout this table, the districts in which this exclusion appreciably affects the rates being referred to in footnotes.
